Updating Contact Permissions with OptinManagerWeb

1. Once Opt-in request emails have been sent, you can run use OptinmanagerWeb to download the Contact's choices to your Act! database. It is recommended to run this process at least once a week to ensure your database stays up to date. Once the permissions are downloaded, they are removed from the OptinManagement.com servers.
2. Click the menu **OptinManagerWeb > Update Contacts**

3. OptinManagerWeb will now download the Contact choices and save the values in the **Email Permission** field for each Contact.
